

2x8 Herringbone Parlour for Sale - New Dundee, ON \$90,000

This parlour was installed in the winter of 2010 and began milking March 21, 2011 and last milked on May 4, 2020. Equipment has seen yearly scheduled services and is in good working order.

What I think makes this parlour particularly attractive is that the farm sustained a lightning strike in July 2018 after which all electronics were replaced. So this is a 10-year old parlour with 2-year old electronics.

The replacement electronics cost in 2018 came to \$87,000. We are asking \$90,000 for everything listed.

We will begin demolition of concrete no later than June 1, 2020 and expect to have all the components available for transport by June 15, 2020.

If you would like to visit, please let me know and we can arrange a time.

Call: Joe @ (519) 575-6009 or email: info@heritagehillfarms.ca
